

Power Jumper IC™
In-Wall Jumpers
 15', 25' and 40' lengths

Use this jumper to extend cable lengths to your A/V equipment.

Low Profile Jumper
 The interconnect easily feeds through 1" diameter holes and past other obstructions in the stud cavity.

HDTV Power Relocation Kit easily conceals power & A/V cables within the wall for a flat panel display or Sonos wireless speaker. For information on the power relocation kits, please visit www.midlite.com.

The In-Wall Jumpers feature a low profile connector that can be easily fed behind the wall and through 1" diameter holes.

Part Number	Length (In Feet)
ICFF15	15'
ICFF25	25'
ICFF40	40'

To be used with the following Part Numbers:

- M2PJCTVW-XX
- M2PJCTVSW-XX
- C7HS1-XX

PN: ICFF-XX
 Conforms to STD 514D and Certified CSA STD 22.2 No. 42.1-00
 Electrical Rating: 125 VAC, 15 AMPS, 60 Hz
 Meets UL 817 & CSA#22.2#21
 Interconnect meets UL 2256, 2459
 Meets NEC 2014 Article 400.7 (A)(11)
 Patented with multiple patents pending.
